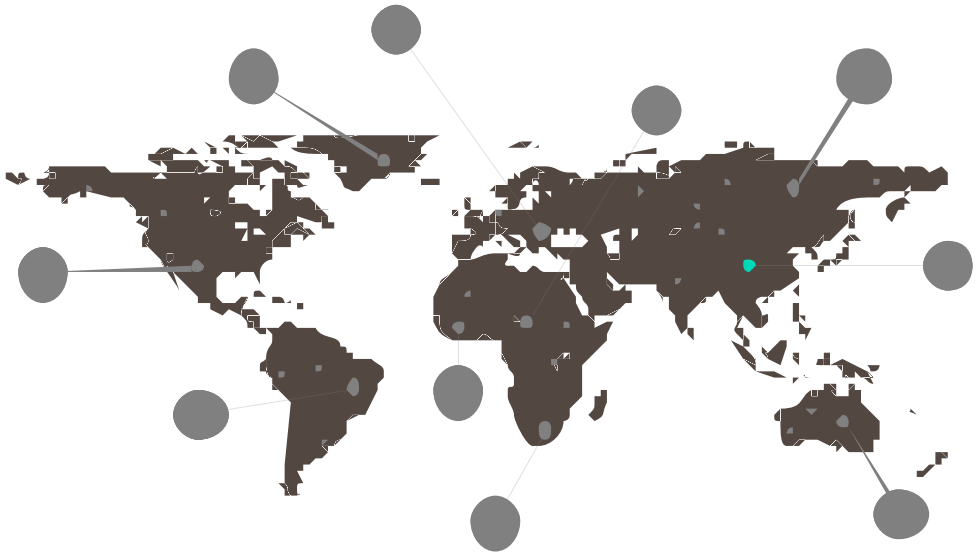
INTRODUCTION

OSINT- Open Source Intelligience, though not directly related to the concepts of Open Source or collective Intelligience, focuses on obtaining a rapid information transfer combined with great deal of actionable and predictive intelligience by using open or unclassified sources.



Existance

OSINT under one name or another has been around for hundreds of years.

Real life applications

OSINT is primarily used in national security, law enforcement, and business intelligence functions and is of value to analysts who use non-sensitive intelligence in answering classified, unclassified, or proprietary intelligence requirements across the previous intelligence disciplines.
